

MUHAMMAD ZEESHAN YOUSAF

AI ENABLED - FULL STACK WEB DEVELOPER

Pakistan | iamzeeshanyousaf@gmail.com

Results-oriented Senior Software Engineer specializing in web development, with expertise in building scalable and innovative solutions. Skilled in problem-solving, software development, and cross-functional collaboration. Passionate about optimizing performance and driving digital transformation.

WORK EXPERIENCE

Senior Software Engineer | Coeus Solutions GmbH June 2024 - present

- Combining technical proficiency with leadership, I spearhead the web development skills to architect and deploy highly scalable applications, fostering team efficiency and project success.

Software Engineer | Visnext Software Solutions Feb 2024 - June 2024

- Enhanced and optimized web application performance.
- Created an interactive, responsive applications frontend.

Associate Software Engineer | Coeus Solutions Nov 2021 - Feb 2024

- I enhanced team productivity by crafting tailored software solutions for bug tracking, feature additions, and project organization. Leveraging my expertise, I further optimized team efficiency through the development of high-performance websites.
